LEX KONTRACT

INTELLIGENT CONTRACT MANAGEMENT

A LexComply Product
RSJ Lexsys Pvt. Ltd.
ISO 27001 • AI-Native

Turn every contract from a hidden risk into a source of intelligence.

LexKontract is an AI-native contract lifecycle platform that centralises every agreement — from first draft to final signature — in one secure, searchable repository, with intelligent automation built into every step.

23 +	195 +	AI
FEATURES	LANGUAGES	NATIVE

AI AT THE CORE

Understood the moment it lands
AI flags clauses, summarises & suggests — plus generation, extraction & 195+ language translation.

70%+ LESS REVIEW TIME

Why it matters

The cost of unmanaged contracts

Contracts scattered across inboxes and drives, renewals tracked in spreadsheets, approvals looping endlessly over email — **missed deadlines cost money, and undetected clause deviations create real compliance exposure.** LexKontract closes every one of these gaps on a single platform.

- **Scattered storage** — No single source of truth
- **Missed renewals** — Manual, spreadsheet tracking
- **Slow approvals** — No structured workflow
- **Compliance gaps** — Unapproved deviations
- **Zero intelligence** — Filed and forgotten
- **Data trapped in PDFs** — Never extracted

Why LexKontract

Six reasons enterprises choose us

AI-Native from Day One
Intelligence isn't bolted on — generation, extraction, translation and summarisation are embedded throughout.

One LexComply Ecosystem
Connects seamlessly with LexComply CMS and LexBuddy — one vendor for full legal & compliance coverage.

No User Limit
Unlimited users across every department and entity — no per-seat pricing that penalises growth.

Enterprise Security
ISO 27001 certified, role-based 2×2 security matrix, VAPT facilitation and secure cloud hosting.

195+ Languages
AI-powered translation enables truly global contracting — without external translation vendors.

Trusted by 450+ Enterprises
Powering compliance & contracting across 30+ countries, including Big 4 firms.

LexKontract

ONE PLATFORM · FULL CONTRACT LIFECYCLE

Cloud-Native Platform
Go live in weeks
Mon–Sat support

The complete lifecycle

Create → Collaborate → Sign → Manage

1 Create
Draft from reusable templates or generate with AI in seconds.

2 Collaborate
Structured review, negotiation and a secure vendor portal.

3 Sign
Built-in eSignature plus integration with external platforms.

4 Manage
Searchable repository, analytics and proactive lifecycle alerts.

AI-powered intelligence

Contracts as insight, not risk

Key Identification & Summary

Every contract is analysed automatically — key clauses flagged, plain-English summaries and improvement suggestions surfaced.

Review time cut 70%+

AI Contract Generation

Produce complete, legally-structured contracts from a brief description — teams refine rather than start from scratch.

Brief to draft in seconds

Data Extraction (PDF & Scans)

Upload any PDF or scanned document and AI extracts parties, dates, values, obligations and clauses.

Zero manual data entry

Bulk Historical Digitization

AI reads, extracts and classifies your entire legacy archive so your repository is complete from day one.

Full legacy digitization
