CIRCULAR

Sub: Preparation of Annual Inventory under the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 for the period 2018-19.

<><><>

The Ministry of Environment, Forest and Climate change has notified the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016

Rule 20 (3) reads as under:

The State Pollution Control Board based on the annual returns received from the occupiers and the operators of the facilities for disposal of hazardous and other wastes shall prepare an annual inventory of the waste generated; waste recycled, recovered, utilized including co-processed; waste re-exported and waste disposed and submit to the Central Pollution Control Board by the 30th day of September every year. The State Pollution Control Board shall also prepare the inventory of hazardous waste generators, actual users, and common and captive disposal facilities and shall submit the information to Central Pollution Control Board every two years.

The Board has submitted annual report for the period 2017-18 to CPCB which in turn has informed gaps in the annual report and not accepted the same. The Board Office has asked the Regional Officers to submit the revised inventory.

The Hon'ble NGT in OA no 804/2017 is reviewing implementation of the provisions of the Hazardous and Other Wastes (Management and

Transboundary Movement) Rules, 2016. One of the issues is regarding incomplete/ incorrect annual returns and also non- inclusion of other waste details in the inventory. KSPCB has committed to CPCB that the details is verified and complied before submitting to CPCB for both Hazardous and other waste

In order to streamline the inventory following advice is given

1. Other waste is defied under Rule 3(23) as under

“other wastes” means wastes specified in Part B and Part D of Schedule III for import or export and includes all such waste generated indigenously within the country

These waste are required to be managed similar to Hazardous waste (Authorization, handing over the waste to actual user, making entry in the pass book, storage period, manifest system) and the details shall be included in the inventory.

2. Jurisdictional Regional Officers shall collect information in Form 4 from the actual users as per Rule 3(2) (recyclers, preprocessors, preprocessors, co processors as defined under the Rule 3) which shall include brake-up of industries from whom the waste is received. The information so collected shall be sent to all the RSEOS and ROs
3. Jurisdictional Regional Officers shall collect information in Form 4 from the disposal as per Rule 3(10) (Standalone incinerators and TSDF as defined under the Rule 3) which shall include brake-up of industries from whom the waste is received. The information so collected shall be sent to all the RSEOS and ROs.
4. All the Regional Officers shall compare the returns received from individual industries with the information received as per sl no 2 and 3 above

Eg:

Land fillable waste	Compared with TSDF quantity
Incinerable waste	Compared with standalone incinerators, in house incinerators and co-processing quantity
Recyclable waste Eg - Used oil	Compared with used oil recyclers, Similarly for other recycling units

The above procedures shall be followed

5. After compiling the Data, the Regional Officer shall submit the inventory to RSEO for verification.
6. RSEO after verifying the information and ensuring correctness of the information shall forward the compiled report pertaining to his jurisdiction to the Board office
