No. 10-12/2012-CS-III

Dated: 10.11.2022

To

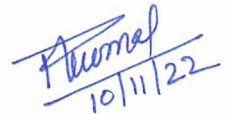

All Infrastructure Providers – Category –I (IP-I) Registration holders.

Subject: Instructions regarding implementation of National Cyclone Risk Mitigation project (NCRMP) by NDMA in Kerala.

In pursuance to the amendment dated 10.11.2022 in the scope of IP-I Registration, it has been decided that all the IP-1 registration holders are allowed to share the telecom towers owned by them with State Disaster Management Authority (SDMA) in Kerala State for installation of Early Warning Dissemination System (EWDS) under National Cyclone Risk Mitigation Project (NCRMP) as per mutually agreed terms and conditions and on payment of rent as agreed between IP-1 registration holder and SDMA.

2. Upon receipt of request from SDMA for using the telecom towers for EWDS, the concerned IP-I Registration holder shall carryout survey and check the structural stability of tower(s), availability of space/ power etc. and then offer the suitable site(s) to SDMA. Prior to installation of any equipment (related to above) on the telecom tower, IP-I Registration holder shall also ensure that working of telecom equipment is not affected in any manner (related to space, power, interference etc.) due to installation of the aforesaid equipment. While assessing these conditions, the concerned IP-1 shall consider the existing and future requirements of telecom networks (e.g. expansion of network, upcoming 5G etc.). The IP-I Registration holder shall be required to remove any equipment which interfere with telecom equipment. The IP-I Registration holder shall also submit an undertaking to Kerala LSA that compliance to all above conditions has been ensured prior to commencement of installation.

3. The IP-I Registration holder shall also intimate the concerned LSA once the installation & commissioning work of the equipment on the tower is complete.
